

Our Improvised Shows demonstrate and inspire...

Our workshops introduce... Our residencies develop...

Our Professional Development teaches your staff to continue long after we leave...

CREATIVITY (writing, thinking, storytelling), **COMMUNITY** (team, respect, listening), and **LEADERSHIP** (Public Speaking, Eye Contact, Self Confidence)

CULTURAL ARTS

Our Improv Shows –disguised as modern comedies – introduce students to classic theater and music. The cast create original skits and songs based on audience suggestions and participation. No two shows are ever the same. We perform at many schools year after year. The students, teachers and parents equally love the entertainment. The break from the stress of the classroom refreshes all...

LANGUAGE ARTS

The shows, workshops and residencies all focus on story telling – creating original characters, scenes and action. Our methods are unequalled developing creativity. We take away the fear of creativity and public speaking. Through a series of theater games we submerge ourselves in otherwise dry academic topics. We teach students how to learn.

CHARACTER BUILDING

We have great study guides that tie in our messages of team to Anti-Bully themes. The workshops both serve to teach team skills that deter bully and other disrespectful behavior AND build self-respecting, self-confident individuals better equip to handle bully behavior from others. Even in our workshops for adults, we find fear of making eye contact and public speaking one of the biggest obstacles to success.
